

# WORLD STAINLESS STEEL

# 2021

## Conference & Expo

November 30<sup>th</sup> - December 2<sup>nd</sup>, 2021  
MECC Maastricht, The Netherlands

## CALL FOR CONFERENCE PRESENTATIONS

### EVENT INFORMATION

▶ Giving a Presentation - Submission Deadlines	2
▶ Possible Presentation Topics	3
▶ International Steering Committee	4
▶ Exhibition Exhibitors List	5
▶ Exhibition Floorplan & Booking Information	6
▶ Exhibition Stand Booking Form	8

Proudly sponsored by:

MARUICHI STAINLESS TUBE CO.,LTD.

\*All information contained in this brochure was correct at the time it was produced and may be subject to change.  
Our apologies for any inconvenience this may cause.

## Giving a presentation at the conference...

Submit your abstract to present at Stainless Steel World Conference 2021. The online abstract submission is now open, please go to: [stainless-steel-world-event.com/conference/submit-abstract/](https://stainless-steel-world-event.com/conference/submit-abstract/) Early submission is important to ensure that the Steering Committee members have ample time to review the abstracts. They should be a maximum of 300-400 words in length and should be submitted online before 15th of May 2021. *See below the submission/approval deadlines.*

**Please note:** should the Stainless Steel World Conference be subject to extended COVID-19 regulations please be assured we are able to host the conference in multiple compatible formats.

### Types of presentations

If your presentation is about the application and use of stainless steels and/or exotic alloys in the world around us then we want to hear from you. It may concern new product grades and products, new developments and technologies; challenges and solutions to your every working life with regard to these materials; discuss latest trends or advances in specific industries and markets; delve into safety standards; or address any other issues of interest to the global stainless steel community.

### Let us hear your voice

Submit an abstract and express your views and opinions! One of the best ways to get your ideas across to peers in the industry is to stand up and speak out. Do not, therefore, miss this opportunity to let us hear your voice and your passion for your work.

Anyone and everyone has the ability to do this, providing they are driven with what they do in their working lives and have thought well and prepared carefully about what they want to present. If you are unsure of a theme discuss it among your colleagues, friends, and within your management, and then propose this spark of an idea to us through an abstract.

It could well make a difference to the industry and to you personally! Help us to achieve our goals to foster the exchange of knowledge and expertise across the international stainless steel

community. We can only do this with your commitment, enthusiasm, and talent. Come and join us, make new peer friends, and expand your network. We guarantee that you will certainly have some unforgettable and worthwhile fun.

### SUBMISSION DEADLINES

- ▶ **Abstract submission:**  
**15 May 2021**
- ▶ **Notification of acceptance:**  
**1 July 2021**
- ▶ **Final presentation submission:**  
**1 November 2021**

**ONLINE SUBMISSION:**  
[stainless-steel-world-event.com/conference/submit-abstract/](https://stainless-steel-world-event.com/conference/submit-abstract/)

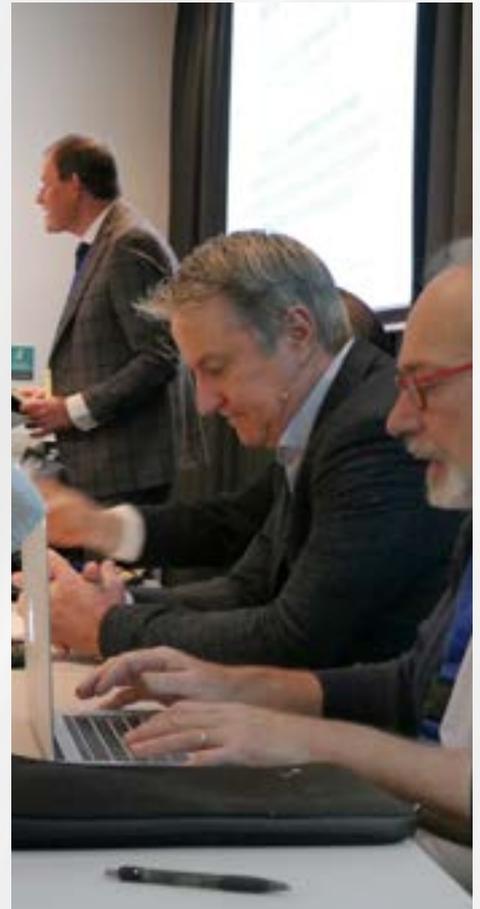

*All presenters will receive a 25% reduction on conference fees. End-user delegates at the conference will receive a 50% reduction on conference fees. Special student rates are also available.*

## Possible presentation topics...

Topics for technical abstracts can be anything related to stainless steel. Your presentation at the 2021 Stainless Steel World Conference should provide us with your technical insights to drive ideas forward, overcome challenges, and highlight innovation.

We invite you to share your challenges and successes on any technical themes. Presentations on new topics are very welcome, for example:

- Anti-bacterial uses
- Carbon neutral
- Clean hydrogen
- Green energy
- Nuclear waste management
- Recycling (Plastics, Waste-to-chemicals)
- Renewables

There is a myriad of other topics that are of interest to our audience, for example:

- Additive manufacturing
- Castings & forgings
- Chemical & petrochemical applications
- Cladding and overlay
- Corrosion in all its forms
- Design
- Duplex in all its forms
- End-user requirements
- High-temperature applications & materials
- Lifecycle costs
- Lifetime extension of materials
- Maintenance/inspection
- Materials selection
- Non-destructive testing
- Ultrasonic testing
- Oil & gas applications (off/onshore)
- Recycling of materials
- Welding

Should you have any questions at all regarding this Call for Presentations or indeed any questions regarding the Stainless Steel World Conference 2021 please contact me, **Ms. Kiyo Ichikawa - Conference Organizer**, via email@ [k.ichikawa@kci-world.com](mailto:k.ichikawa@kci-world.com)

### Selection of presentations

The final selection of presentations will be made for the conference by the International Steering Committee. Its members who select the papers will be particularly looking for original work.

### Criteria for selection

- Quality of content
- Innovation, relevance, topicality
- Focus on application experience
- Presentation of case studies
- Practicality in terms of challenges and/or solutions
- Interest to a wide audience
- Technical as opposed to commercial

### Online submission:

## International Steering Committee

**Chairperson: Jan van de Wetering** - Nobian

**Jacko Aerts** - DSM

**Svein Prestrud Astad** - Equinor ASA

**Lari Brask** - Stal tube Oy

**Raymond Cordewener** - R. Cordewener  
Management & Consultancy

**Wenbu Dong** - Baoshan Iron & Steel Co

**Barinder Ghai** - Sandvik Materials Technology

**Joelle Greenwood** - Salzgitter Mannesmann Stainless Tubes

**Norbert Heinzle** - H. Butting GmbH & Co. KG

**John Houben** - ExxonMobil Research and Engineering

**Kiyo Ichikawa** - KCI Publishing B.V.

**Reza Javaherdashti** - Eninco Engineering B.V.

**Tadashi Kawakami** - NIPPON STEEL Corporation

**Nicole Kinsman** - International Molybdenum Association

**Thomas Ladwein** - Hochschule Aalen

**Stefan Müller-Bernhardt** - Damstahl Stainless Steel Solutions

**Mamoru Nagao** - Maruichi Stainless Tube Co., Ltd.

**Sunday Okoro** - Grundfos Holding A/S

**Sayee Raghunathan** - Saudi Aramco

**Iris Rommerskirchen** - Eisenbau Krämer GmbH

**Lars Rose** - DuPont

**Peter van Gansewinkel** - Brück

**Willem Maarten van Haaften** - Shell Project & Technology

**Shankar Venkataraman** - Schmidt + Clemens

**Robin Wang** - Zhejiang JIULI Hi-Tech Metals Co., Ltd.

**Lena Wegrelius** - Outokumpu Stainless AB - Research & Development

### Meet the Chairperson

Jan van de Wetering studied Materials Science at Delft University in The Netherlands. He joined AkzoNobel in 1992, working as a Corrosion Prevention Consultant in the Materials and Corrosion Technology Group. In his early years there, he focused on cooling and boiler water treatment and participated in a Dutch National Project of the Water Treatment and Chemical Process Industry to set up a standardized test for cooling water treatment programs. He was involved in EC-funded R&D Projects on the Development of New Electrochemical Monitoring Techniques for the CPI, and been a member of several User Committees for the Dutch Government-funded Material and Corrosion Research Projects. As a Senior Corrosion Consultant, he has been involved in many capital projects and in offering Operation Corrosion Engineering Services to the Business Units of AkzoNobel. Since AkzoNobel Specialty Chemicals was relaunched as Nouryon in 2018, he has continued working there as a Senior Corrosion Engineer, Industrial Chemicals, Asset Management - Materials Technology.

The **Machining World Pavilion** will be situated in the main hall of the Stainless Steel World Exhibition.

The pavilion will offer a platform for companies who specialize in machines and tooling for the manufacture, fabrication and finishing of stainless steels.

This specialist section can host machines and equipment and will provide a hands on experience with live demonstrations throughout the event. For manufacturers and retailers of CNC equipment, machinery and tools - this is the perfect platform to showcase your company.

To find out more about exhibiting in the **Machining World Pavilion**, please contact Mr. Erik Schoppema:

Tel: +31 575 585 293 Email: [e.schoppema@kci-world.com](mailto:e.schoppema@kci-world.com)

# Exhibitors List

With around a year to go until Stainless Steel World Conference & Exhibition 2021, the list below shows the companies that have already committed to exhibiting. Please see the latest list on our website at: [stainless-steel-world-event.com](http://stainless-steel-world-event.com) or scan the QR Code.

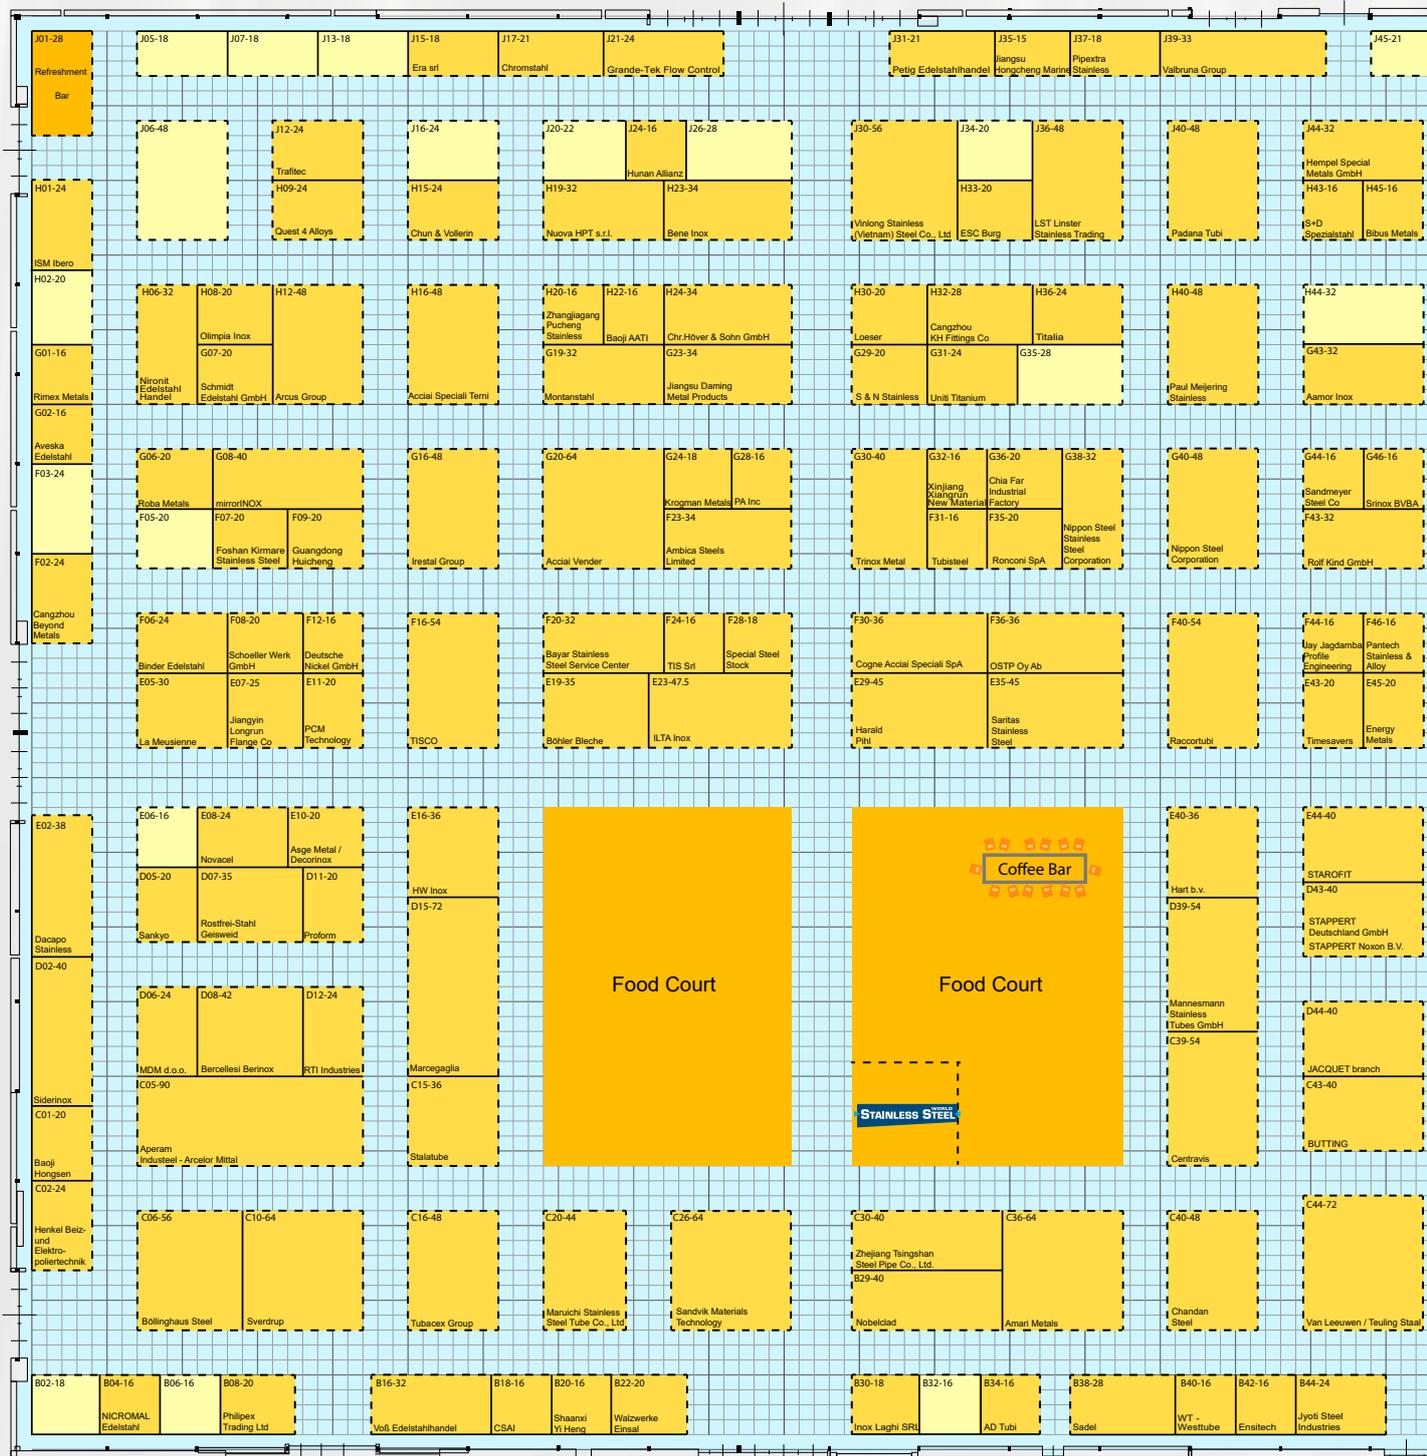

Aamor Inox Limited	India	Foshan Vinmay Stainless Steel Co., Ltd.	China	MW Metal Industry Ltd	China	SpecialSteelStock - C.S.C. S.p.A	Italy
