Giving a presentation at the conference

Submit your abstract to present at Stainless Steel World Conference 2023. The online abstract submission is now open: bit.ly/3FQGPnk. Early submission is important to ensure that the Steering Committee members have ample time to review the abstracts. Abstracts should be a maximum of 300-400 words in length and should be submitted online before **1st of April 2023**. See below the submission/approval deadlines.

All presenters will receive a 25% reduction on conference fees. End-user delegates at conference will receive a 50% reduction on conference fees. Special student rates are also available.

Presentation topics

If your presentation is about the application and use of stainless steels and/or exotic alloys in the world around us then we want to hear from you. Topics include new product grades and products, new developments and technologies; challenges and solutions to your every working life with regard to these materials; discuss latest trends or advances in specific industries and markets; delve into safety standards; or address any other issues of interest to the global stainless steel community.

Let us hear your voice

Submit an abstract and express your views and opinions! One of the best ways to get your ideas across to peers in the industry is to stand up and speak out. Don't miss this opportunity to share your voice and your passion for your work.

Everyone has the ability to do this. Discuss it among your colleagues,

friends, and within your management, and then propose this spark of an idea to us through an abstract.

It could well make a difference to the industry and to you personally! Help us to achieve our goals to foster the exchange of knowledge and expertise across the international stainless steel community. We can only do this with your commitment, enthusiasm, and talent.

Come and join us, make new peer friends, and expand your network. We guarantee that you will certainly have some unforgettable and worthwhile fun.

DEADLINES 2023

Abstracts: 1 April

Acceptance Notification: 1 June

Final submission: 25 August

Share your ideas, challenges & successes!

Topics for technical abstracts can be anything related to stainless steel. Your presentation at the 2023 Stainless Steel World Conference should provide us with your technical insights to drive ideas forward, overcome challenges, and highlight innovation.

We invite you to share your challenges and successes on any technical theme. Presentations on new topics are very welcome, for example:

- Antibacterial uses
- Carbon neutral
- Clean Hydrogen
- Green Energy
- Nuclear waste management
- Recycling (Plastics, Waste-to-chemicals)
- Renewables

Selection of presentations:

The final selection of presentations will be made by the International Steering Committee. Its members will be particularly looking for original work.

Criteria for selection:

- Quality of content
- Innovation, relevance, topicality
- Focus on application experience
- Presentation of case studies
- Practicality in terms of challenges and/or solutions
- Interest to a wide audience
- Technical as opposed to commercial

Online submission: bit.ly/3FQGPnk

Should you have any questions regarding this Call for Presentations or indeed any questions regarding the Stainless Steel World Conference 2023 please contact me:

Ms. Kiyo Ichikawa - Conference Manager, k.ichikawa@kci-world.com

Every year, the Stainless Steel World Steering Committee comes together to share knowledge, experience and insight in order to create a conference that is both topical and industry-relevant. The committee spans all sectors of the stainless steel industry, and many corners of the globe – this means that our committee aims to be representative and inclusive.

CHAIRMAN - Willem Maarten van Haften

The Netherlands

Jacko Aerts
Senior Consultant Materials & Corrosion – DSM,
The Netherlands

Svein Prestrud Astad
Senior Engineer Materials Technology - Equinor
ASA, Norway

Andrew Balev Dpl. Materials Engineer
Head of R&D of Centraviz Production Ukraine
PJSC, Ukraine

Raymond Cordewener
Director R. Cordewener Managing and
Consultancy, The Netherlands

Wenbu Dong
Senior researcher - Baowu
China

Roger Francis
Nickel Institute, UK

Peter van Gansewinkel
Key Account Manager - Brück GmbH, Germany

Barinder Ghai
Regional Technical Marketing, EMEA - Alleima
Materials Technology, UK

Joelle Greenwood
Global Key Accounts Manager: Oil & Gas Market -
Salzgitter Mannesmann Stainless Tubes Group,
France

John Houben
Exxon Mobil, The Netherlands

Kiyo Ichikawa
KCI Publishing BV, The Netherlands

Markus Kind
Commercial MD - R. Kind GmbH, Germany

Nicole Kinsman
Technical Director - International Molybdenum
Association (IMO), Switzerland

Thomas L. Ladwein
Consultant, Germany

Hervé Marchebois
Materials & Corrosion specialist - TotalEnergies,
France

Mamoru Nagao
General Manager, R&D Department – Maruichi
Stainless Tube Co. Ltd., Japan

Sunday Okoro
Materials and corrosion specialist – Grundfos
Holding A/S, Denmark

Samarth Patel
Director - Export Sales & Business
Development, India

Sayee Raghunathan
Welding and metallurgical engineering
consultant – Saudi Aramco, Saudi Arabia

Jan-Willem Rensman
Welding and Materials Engineer – Fluor Corp.
The Netherlands

Iris Rommerskirchen
Business Development Director - Eisenbau
Krämer GmbH, Germany

Christian Schenk
Head of Project Sales, Stainless Steel Welded Pipes
- H. Butting GmbH & Co. KG, Germany

Yuhei Suzuki
Engineer, Pipe & Tube Products - NIPPON STEEL
Corporation, Germany

Lena Wegelius
Research & Development Manager - Outokumpu
Stainless AB, Sweden

Held at the same time as the conference, the Stainless Steel World Exhibition 2023 is tailored toward providing direct business-to-business and networking opportunities. It will welcome a diversity of global knowledge from exhibitors, visitors and conference delegates, contributing to expanding the understanding and knowledge necessary for future industry growth.

Stainless Steel World Exhibition 2023 is the ideal opportunity to showcase your company products, services and personality to the dedicated global stainless steel community. Get ahead and take your place at the forefront of the global stainless steel industry.
