Advance Conference Programme

STAINLESS STEEL Conference & Expo

Join us at Stainless Steel World Conference & Exhibition 2023!

Stainless Steel World is the premier international forum for exchanging knowledge and experience in the manufacture and application of stainless steels. The event contributes to a better understanding of recent trends in new alloy developments, welding, fabrication, surface treatment and materials specification.

Interactive conference sessions will focus on new alloy developments, welding, additive manufacturing, emerging applications for stainless steels and their contribution to sustainability. Presentations will cover high-temperature applications, corrosion, duplex and manufacturing developments. This year's particular focus is the use of stainless steel in green energy technologies. Furthermore, a panel of stainless experts will be on hand to solve your technical issues at the conference and on the expo floor, where a whole spectrum of social events will occur.

The conference offers an excellent opportunity for researchers, corrosion specialists, welding engineers, sustainability specialists, designers, manufacturers, stockists and other professionals to network, share experiences and do business.

Focus on Sustainability Day

Wednesday September 27th

Sustainability is the keyword these days and companies are taking major initiatives in the area of sustainable stainless steel production, processing and use. Recognizing the goals of the energy transition, the stainless steel industry is already developing and applying innovative technologies to tackle the low-carbon challenge. In recent years in particular, many stainless steel companies have initiated major projects towards decarbonization, with the aim of becoming carbon neutral by 2050.

To facilitate the essential sustainability conversation during the Stainless Steel World Conference & Expo 2023, Stainless Steel World will host a 'Focus on Sustainability Day' on Wednesday 27 September 2023.

In the morning the Conference will incorporate a program of conference sessions dedicated to the technical and strategic approaches implemented by companies who aim to produce and use stainless steel with a minimal carbon footprint.

► In the afternoon, the Sustainability Forum will host a selected group of companies who will present and discuss their initiatives in the areas of sustainable stainless steel production, processing and usage.

The Sustainability Forum will be formatted as an open-access forum to facilitate essential engagement from the assembled audience of stainless steel industry professionals. So take the opportunity to join this free open access sustainability discussion.

Meet the Chairman

Willem Maarten van Haaften, Senior Research Engineer Materials & Corrosion, Shell, The Netherlands

"It is an honour to be your chairman this year and together with the Steering Committee, we have a fantastic event in the making. Each day starts with plenary lectures addressing global, broader aspects of the stainless steel industry. These lectures will provide food for thought as to how crucial end-user markets and the stainless steel industry will develop in the near future. Workshops and technical sessions are to follow, focusing on more hands-on topics."

"There will be plenty of opportunities to exchange ideas with fellow delegates and the presenters. After all, the Stainless Steel World Conference is an excellent networking event, designed to meet up with old acquaintances or come into contact with new members of the global stainless steel community."

"I'm looking forward to meeting you at Stainless Steel World Conference & Expo!"

Sincerely, Willem Maarten van Haaften, Senior Research Engineer Materials & Corrosion, Shell, The Netherlands

International Steering Committee

The Stainless Steel World Steering Committee comes together to share knowledge, experience and insight in order to create a conference that is both topical and industry-relevant. The committee spans all sectors of the stainless steel industry, and many corners of the globe – this means that our committee aims to be representative and inclusive.

Conference & Expo

Sponsors / Supporters

Thank You

The continued success of the Stainless Steel World Conference and Exhibition is credited to the hard work of all of those involved in its organisation and to those who contribute on the day. An extra special thank you of course goes out to our event sponsors who are incredibly flexible and reliable in their support. On these pages you will find an introduction to our sponsors who have helped make Stainless Steel World 2023 possible. In addition, we would like to thank all of our exhibitors and presenters, prospective visitors and delegates, and of course our dedicated steering committee members. We value your cooperation and continued support of our event.

Alleima

Alleima is a leading manufacturer of high value-added products in advanced stainless steels and special alloys as well as products for industrial heating.

Based on long-term customer partnerships, and leading materials technology, we advance processes and applications in the most demanding industries.

With more than 900 active alloy recipes, our offering comprises products for several customer segments, mainly seamless stainless tubes, electric heating technology and resistance materials, ultra-fine wire, and precious metals for use in medical devices and electronic appliances, as well as precision strip steel and strip-based products.

Our fully integrated value chain, from R&D to end-product, ensures industry-leading technology, quality, sustainability, and circularity.

Alleima, with headquarter in Sandviken, Sweden, and revenues of SEK 18.4 billion in 2022, has approximately 5,900 employees and customers in approximately 90 countries.

At Mannesmann Stainless Tubes, we are proud of our commitment to the continuous innovation and development of our production range to support

MANNESMANN STAINLESS TUBES

Visit us at stand C20

Maruichi Stainless Tube manufactures high-quality seamless stainless pipes and tubes around the globe. Most recently, it has focused on products for the semiconductor and automotive markets with innovative grades and ongoing, large-scale investments in technology. Decarbonisation, both in-house and in the markets it serves, is also a priority.

Two years have passed since Kobelco Steel Tube changed its name to Maruichi Stainless Tube and joined the Maruichi Steel Group. In addition to manufacturing high-quality seamless stainless pipes and tubes, Maruichi Stainless Tube also produces high-growth products such as semiconductor bright annealed (BA) tubes.

Maruichi Steel Tube, the parent company of Maruichi Stainless Tube, has offered customers dedicated services since its establishment in 1947. The company has amassed technological know-how and expertise throughout its alobal facilities. It has state-of-the-art tube mills at 16 locations in Japan and 17 overseas: 3 in the USA, 2 in Mexico, and 12 in Asia.

NIPPON STEEL

- Be the Best Steelmaker with World-Leading Capabilities -

NIPPON STEEL is at the forefront of the Japanese stainless steel seamless pipe and tube industry.

NIPPON STEEL has been growing as a global leading steelmaker for many decades.

For more than 100 years, NIPPON STEEL has continuously adapted and innovated for clients in a range of industries.

And we continue to strengthen our manufacturing capabilities to address evolving client needs.

NIPPON STEEL offers various solutions to customers through its extensive experience in manufacturing seamless pipes of numerous materials from common arade to Ni-based alloy.

NIPPON STEEL's Pipe and Tube unit have built a world-wide reputation of quality and innovation as a manufacturer of critical application tubular used across a number of industries.

With manufacturing bases and offices at strategic locations in Asia, Europe, the Middle East, North and South America, NIPPON STEEL is always close to its

Rolf Kind GmbH was founded in 1969 and is specialized in manufacturing of forgings in high alloyed stainless and corrosion resistant materials, nickel based alloys as well as titanium and titanium alloys. As a German family run company right from the start, we strongly follow our traditional values like high class quality and strong business relationship.

Being responsible for the complete manufacturing chain, any customized product geometry such as shafts, rings, cylindrical bushings, hollows, round and square shapes as well as special shapes tailored to suit our customers' needs can be supplied. Due to our comprehensive and widespread technical know-how, we are able to produce forgings of highly sophisticated technical designs, being later used in machinery and equipment construction, oil and gas processing industries, on- and offshore applications and nuclear applications.

Our main focus and strength is our key skills in open die forging and machining, as well as detailed metallurgical knowledge. Paired with our very special business concept, we are able to offer any product from the raw material - up to the ready-to-install part from a single source.

Our challenge: to go beyond the limits of conventional forgings.

SC Schmidt + Clemens Group

The name Schmidt + Clemens has stood for high-quality special steel solutions for more than 140 years. Be it spun casting, static casting, investment casting or forgings, we will face your challenges head on.

The Schmidt + Clemens Group is active on the international stage. Besides its German headquarters in Lindlar-Kaiserau, S+C also has production facilities in Spain, the Czech Republic, Saudi Arabia and Malaysia. Three corporate distribution companies in the USA, India and Brazil combined with over 30 commercial agencies consolidate our global presence.

In 2008, Scoda Tubes Ltd was established as a manufacturer of innovative stainless steel pipe and tube solutions. After solid performance during the early years, Scoda Tubes' growth sky-rocketed following a management change in 2017. Investing in technical excellence and bristling with ideas on how to develop a global presence, the new management team has steered Scoda Tubes to even greater heights. Today Scoda Tubes is rightly recognised as a global business player with an enviable portfolio of stainless steel seamless and welded pipes, tubes and heat exchanger tubes.

Scoda Tubes has developed a solid customer base in industrial sectors such as oil and gas, petrochemicals, power plants, automobiles, sugar, pharmaceuticals, shipbuilding, etc. In its home country of India, the company has a strong presence in the domestic market.

STAINLESS STEEL Conference & Expo

Travel / Accommodation Information

Networking is top of our agenda

Addition to the reception on the exhibition stands Stainless Steel World also develop the social programmes for networking to be top of the agenda. See the website : https://stainless-steel-world-event.com/social-programme/

Welcome Reception

Monday September 25th, 17:30 Where: MECC Café

Held at the end of Monday afternoon, the welcome reception is open to all. The reception is an opportunity to meet the valued and influential group of community members who are instrumental to the structure and direction of the Stainless Steel World Conference & Expo; from steering committee members, to presenters, conference delegates, exhibitors, association members and of course the full Stainless Steel World team. Come along and have a drink, a snack, and a chat. A great way to kick-off your networking participation at this prestigious event.

Stainless Steel World Dinner Show

Wednesday September 27th, 18:00 Where: MECC Maastricht

Attention all attendees of the Stainless Steel World 2023! Don't miss out on our exclusive Dinner Show taking place on Wednesday evening. Join us for an evening of delicious food and an entertainment.

Our Dinner Show offers the perfect opportunity to unwind after a long day of conference sessions, standing exhibitions and networking. Sit back, relax, and let talented performers take you on a journey of music, laughter, and amazement.

Don't miss out on this unique opportunity to experience together. Book your tickets now and join us for a night to remember at our exclusive Dinner Show during the Stainless Steel World 2023. Dinner ticket registration

Tickets to join the Stainless Steel World Dinner Show are €95 per person.

Register in advance and secure your place via www.stainless-steel-world-event.com and follow the link to Social Programme.

Don't delay - The number of tickets is limited.
